

WASHING

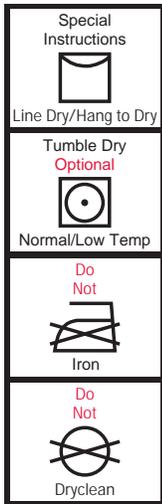

Recommended: Hand washing.

Optional: Machine wash "inside-out" in cold water.

Do Not use bleach.

DRYING

Recommended: Line/hang dry.

Optional: Tumble dry garments "inside-out" using the lowest possible temperature setting.

Do Not iron garment directly over heat transfers. Wax paper can be used as a safe barrier.

Do Not dryclean.

Instruction Labels

Proper garment care will ensure the heat transfers will look great for the life of your garment.

The **Garment Care Instructions** label shown here is designed to be placed on a garment after the application process. These labels are not permanent and will not harm the garment.

Enough labels are provided with every heat transfer order. If you need extra, do not hesitate to contact us.
